

### DIGITAL WALLET CARD FOR UTILITIES

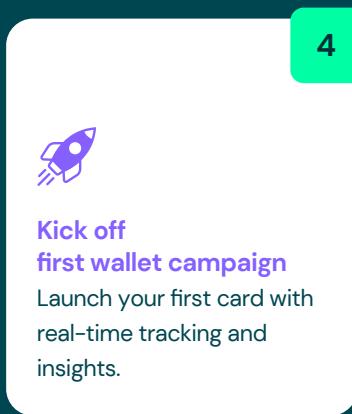

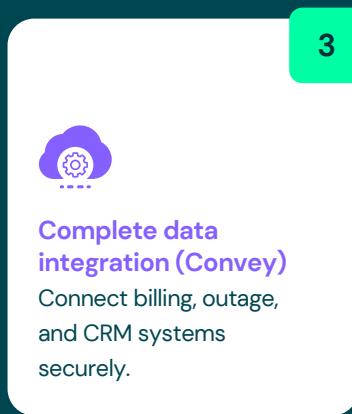

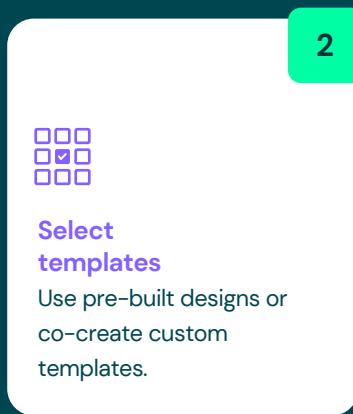

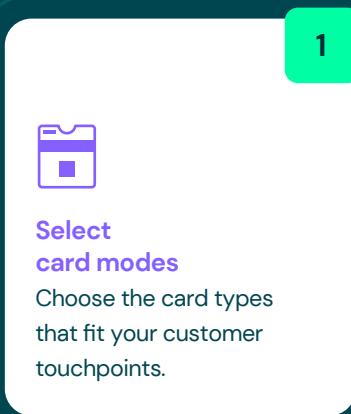

## Go from idea to live in under 12 weeks

A simple, secure, and flexible path to launch digital wallet cards for outage updates, billing reminders, and more.

#### THE PROCESS

### The fast track to launch

#### THE APPROACH

### From kickoff to campaign: 8-12 weeks

## SUPPORTED INTEGRATIONS

Works seamlessly with your ecosystem

Utility Card integrates with your existing systems

## MANAGEMENT PORTAL OVERVIEW

Full control, zero complexity

Use an intuitive, web-based portal to:

- Design and launch **wallet cards**
- Configure automation and triggers
- Track engagement in real time
- Manage access and permissions

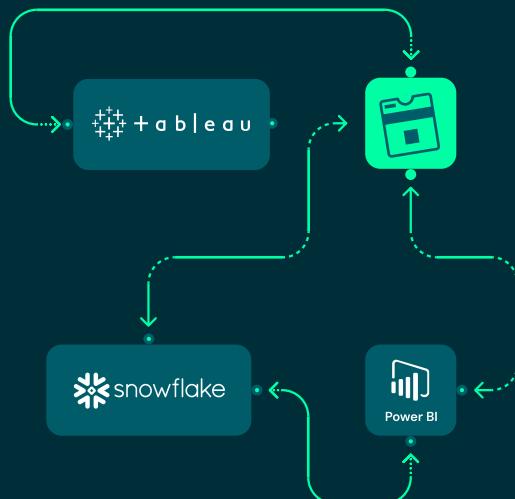

The screenshot displays the Convey Management Portal. On the left, a preview of a digital wallet card for 'EcoEnergy Co.' is shown, featuring a welcome message for 'Sophia', account details (3478), and a 'Default Mode' button. On the right, a 'Primary Card' summary for the 'EcoEnergy Card' is presented, including metrics like 'New Users: 40,689', 'Added to Wallet: 10293', and 'Engagement (CTR): 2040'. The portal also includes a search bar and a 'Take your card to the next level with IQHub Pro' call-to-action.

## DATA &amp; ANALYTICS CONNECTORS

Analytics that drive smarter engagement

Stream wallet engagement data directly to:

- Tableau, Power BI, Snowflake and others
- ConveyIQ analytics dashboards
- Custom systems via APIs or web-hooks
- Actionable insights on customer behavior and campaign performance
